

In memory of Julie.

Session nr 14 of December 19, 2024 --English translation- Original French.

Location: Mezzaverde in Belgium

Received by Wivine

Visitor: **Mother Spirit of our local universe Nebadon- Daughter of Paradise because created by the Infinite Spirit, companion of Christ Michael (Jesus) - Creator Son of Paradise because creation of the Universal Father and the Eternal Son-Mother.**

Note:

In honor of all the children whose mother or father died in dramatic circumstances, leaving behind their young children and a desperate father or mother.

Julie from Madagascar, died on December 19, 2023 following an internal hemorrhage while giving birth to a little boy who we will name Pierre, her 2nd child. Julie and her husband Ralph are part of our group since many years. Like one of us from the Netherlands said : 'We all expect that one day or another someone from our group will leave this earth, but not that it would be such a young person'. There was no problem with her pregnancy, everything was going well and yet it happened. Neither the doctors who did everything they could, nor our energy transfers were able to save her. God called her back. We all have to accept one day or another, even if it's difficult, that we do not have everything in hand.

Wivine.

I received a call for help from Ralph on 31 august 2024 by email which I am forwarding to you below with my answer, as well as the story of the appearance of our **Mother Spirit** during our group meditation of December 4, 2024, in response to Ralph's distress call.

Email from Ralph to me on August, 31 - 2024:

Ralph : I am writing to you Mammy, to ask for your help. Last evening, while eating, something happened between Soa, my little girl, and me

that made her cry. I asked her what was wrong and she answered: *"I am sad thinking of mommy"*. So I took her in my arms and held her to my chest, kissing her with my tears and silently asking our Mother Goddess to give us a new, very nice mommy. Then I advised Soa that every time she thought of her mommy, she should ask Jesus to give us a new, nice mommy.

Every day, I beg our Mother Goddess about this but I still didn't receive an answer. What can I do? I am so eager to receive a blessing from the Divine Order for our home that is so lacking a good mother. I know that we all live under the High Godmother, our Universal Mother Goddess (The Supreme Being), so my hope reassures me because I know that our "Great Mother" understands us much more than I do and loves us with her 'Maternal Affection'.

There you go Mammy, how can I make my little home restore itself faster? Especially during our preparations to receive back little "Pierre" whom Julie's sister has taken care of since his birth until now. Thank you very much for your presence Mammy, we have no other mammy than you for the moment.

Wivine: His distress call broke my heart and after shedding my tears I answered him:

"It's normal for Soa to miss her mother and for you to look for another mammy for your home.

The celestials take care of your children but the lack of her real mother will always remain in Soa's heart. It takes time to soften this pain.

You don't replace a real mother with another woman in the heart of a child. It can even sometimes be bad for your children, especially if the new woman already has her own children.

If there is a nice woman in your entourage, capable of loving your children as her own, you certainly will meet her. You will have to be patient

because we cannot force these things. In the meantime you will play the role of the father and the mother. And you do this already very well.

'Pierre' did not know his mother, this is not the case for Soa. For Soa, her mother will always be Julie and for Pierre it will be Julie's sister.

I am not convinced that another woman for you would necessarily be beneficial for your children. Although God always has his plans, we do not know what solution He has for your family. Your family is under good care, believe me. The pain of Julie's departure will soften with time.

Do not worry too much about your current situation with your children, do not dramatize - cry when you need to, it relieves. Keep your courage. What you are experiencing is a mission in itself and I am sure that you are up to it. I hug you very warmly. Wivine».

Next my report to all the participants of the group meditation of September 4, 2024 with the visit of our [Mother Spirit of Nebadon, our local universe.](#)

Wivine: I arrived at the temple and you were all there. There was a strange atmosphere, we were all sitting in a circle as if we were waiting for an event. Suddenly, at the rooftop, a bright white light grew larger, radiating on the sides a light blue difficult to describe, different from the sky blue colors of Christ Michael. This light blue and white Light inside grew larger as it approached us. It was so intense that I wanted to close the eyes of my soul. This presence was so heavy to bear, almost overwhelming. Then the [energy transformers](#) placed a large image in front to soften this strong luminosity. It was an image of our **Mother Spirit** – our Mother Goddess – known in Christianity as the Virgin Mary.

I did not expect it. This is the first time She manifested herself to us in all her Majesty.

After a moment she spoke.

Our Mother Spirit :

My children, I am the Mother Spirit of your local universe. I am the [bride of Christ Michael](#) – the Supreme Sovereign of Nebadon, your local universe.

My being is as great as all of Nebadon. My form defines the boundaries of Nebadon, I cover your entire local universe and I hold it together. This is why I cannot leave the territory of Nebadon. Travelling outside of Nebadon is part of my husband's obligations.

My role is to create with Christ Michael Higher Celestial Orders or Divine Sons such as the [Melchizedeks](#) and many other Divine Sons who work to carry out Gods Plan, which is creating human beings whose souls would be able to become like God after a long and intense ascension.

But also souls who would be able to fuse with one of my Fragments -the [Mother Spirit of Nebadon--](#), to populate our local universe and help us manage it at different levels. These human souls will evolve towards the paradisiacal state of [Light and Life](#) together with all the Creatures of Divine origin that We have created together or each separately, in our local universe Nebadon.

This means that we have created :

- material worlds whose human souls will **not** be able to [fuse with their God Fragment](#), but with one of My Fragments when they are on the [Mansion Worlds](#), and

- material worlds where there will be humans whose souls will have the capacities to fuse with their Divine Fragment to one day leave Nebadon towards Paradise as a [spiritual creature of the first stage](#).

This is the case on your planet that we call [Urantia](#). At this time not all souls on Urantia are able to fuse with their [Thought Adjuster](#) or God Fragment. This will come later.

I am also the Creator of all [Seraphim, Cherubim and Sanobim](#) inhabiting Nebadon. I am the one who provides all '[life force](#)', and an **adequate mind** to all creatures with a [personality](#), received from the Universal Father.

I came to you following Ralph's cries of distress. To comfort him and all of you. None of you had an easy youth and life. Life has been hard on you and this has brought you to us.

I protect all your children with my devoted angels.

Have you not been told Ralph that your little "Pierre" was surrounded by angels from the moment he was born?

None of you are truly alone, you can always call on me for help. From now on you will be more aware of my presence. You will feel my gentle and maternal presence when you are in pain or disarray.

I am like a mother who calms, reassures, cares for, nourishes and rocks her child. I am like a mother who sees only the beauty and goodness in the heart of her child, even if it behaves like a thug. Each of you will always remain magnificently beautiful in my eyes.

Be without fear, I hold and rock you all in my arms.

Do not forget it, my children.

The end.
